Dore's progress expectations

Black figures are Dore's figures from 2015.

Key Comments

- For each subject Dore's attainment figures exceed the National figures.
- It is pleasing to see that the attainment is higher (APS difference) in all subjects, than last year's attainment figures.
- Progress in reading meets Dore's challenging progress expectations.
- Writing and maths progress was slightly lower than Dore's progress expectations, but still at a high level.
