

Sheffield Children's University

a university without walls...

Dear Parents and Carers

Your school has joined Sheffield Children's University. This encourages children to take part in learning activities of their choice in their own time.

The Children's University celebrates children's achievements with certificates and award ceremonies. To do this we count the learning points that children earn – one for each hour.

The national awards are:

- Bronze (30 hours)
- Silver (65 hours)
- Gold (100 hours)

All the children have to do is to regularly attend their favourite clubs and activities that take place out of lesson time and your school will send us the attendance register. Research shows that if children feel proud and confident about their achievements they often do better at school.

We look forward to seeing you at Children's University award ceremonies in the future.

Thank you
